Kirill Goriakin

Frontend Developer

SUMMARY

Frontend web developer with experience working as a freelancer since 2019. During this time, focused on HTML/CSS layouts, creating new websites from scratch, and maintaining existing ones on Wordpress/PHP. Recently, transitioned from PHP to React and have been working on personal projects to develop my skills in this area. Currently seeking new opportunities to grow and further develop my skills as a professional frontend web developer.

WORK EXPERIENCE

Freelance - Frontend Developer

2019 - 2022

- Developed more than 75 pages, ensuring responsiveness and usability across all devices and browsers.
- Provided ongoing maintenance and support for existing websites, ensuring that they remained up-to-date and functional, using HTML/CSS and WordPress/PHP platforms.

Self-Learning Projects - Frontend Developer

2022 - 2023

In 2022 transitioned to React and worked on personal projects to develop skills as a frontend web developer. Two of them you can see below and other can be found in my portfolio: kirillgoryakin.vercel.app. During this time I learnt a lot of technologies like: React, TypeScript, Redux, Next, GraphQL and much more...

PROJECTS

Paint Online

Paint Online is a web application that allows you to draw with other people in real time with WebSocket connection! On **Frontend**: React, TypeScript, MobX and ChakraUI. On **Backend**: ExpressJS with Express-WS.

[KirillGoryakin/Paint-Online](#)

Chat Up

This is a simple live chat application with authorization via email or Google. It uses Firebase as backend. On **Frontend**: React, TypeScript, Redux and ChakraUI. On **Backend**: Firebase, Firestore Database.

More projects can be found in my portfolio: kirillgoryakin.vercel.app

STRENGTHS

Eagerness to Learn and Develop

Strong motivation and eagerness to learn new things and develop skills, always seeking out opportunities to improve.

Collaborative Mindset

Collaborative mindset, with a willingness to share knowledge, learn from others, and work together to achieve common goals.

Learning from Mistakes

Ability to learn from mistakes, using them as a stepping stone for personal and professional growth.

Attention to Details and Quality Control

Strong attention to detail, ensuring that every aspect of a project is thoroughly considered and executed to the highest standard.
